

Southern Sarpy Watersheds Partnership

Coordination Meeting Agenda December 18th, 2025 | 10:00 am

1. Introductions

- a. Meeting attendance sheet is attached.

2. Planning & Study Projects

a. Southern Sarpy Baseline Streamgaging

- i. Following up on discussions held earlier in the year, the Papio NRD, USGS, and NWS met on 12/17 to discuss potential stream gage locations. Locations were identified in Buffalo, Springfield, and Zwiebel Creek watersheds. Additionally, coordination with NWS informed that there is currently no real time rainfall data in southern Sarpy County. Proposed approach is to establish two streamgages and one rainfall gage as part of monitoring effort.

b. Buffalo, Springfield, Zwiebel Creek Floodplain Mapping

- i. Due to uncertainty surrounding the availability of Cooperating Technical Partner Program funding, the Papio NRD and Nebraska Department of Water, Energy

and Environment (DWEE) Floodplain Management Division are exploring the option to use remaining Community Development Block Grant funding from the 2019 Disaster to support floodplain mapping in southern Sarpy County. The DWEE Floodplain Management Division is working on an application, and more details will be available in coming meetings on proposed scope, costs, etc.

3. Partnership Grade Control Projects

a. Oak Leaf Grade Stabilization – Progress Update

- i. Status update on Oak Leaf. Wetland and stream delineation, topographic survey, and structure location completed. Hydraulics and hydrology and plan sheet setup in progress.

4. Developer Grade Control Projects

a. Buffalo Springs – Example Plat

- i. The group discussed the Buffalo Springs plat as an example of how the SSWP Policies can be laid out and notated.

5. Open Discussion

- a. No discussion items were raised.

6. Next Meeting: **January 15th, 2026**

a. Regular meetings on the 3rd Thursday of the month
